

2018 – CLEAN BURN MAINTENANCE PROGRAM

It is recommended that you service your Clean Burn equipment every 700 to 1,000 hours of operation! Save money by ordering yours now! PetroChoice is your Clean Burn Master Distributor and Service Center!

WHAT'S INCLUDED IN THIS PROGRAM

1. Vacuum ashes from combustion chamber and flue tubes.
2. Vacuum chimney at breach, clean and adjust barometric damper for proper draft.
3. Inspect burner for worn or weak components and upgrades.
4. Replace the burner pre-heater block with **ultrasonically** cleaned block plus new service kit.
5. Clean and replace filters in the tank, pump and canister. Additional tanks and filters are extra.
6. NJ customers may choose to add an additional \$45.00 per unit for emissions testing.
7. FREE telephone technical support in the fall if necessary.
8. **Our Burner Service Kit includes:** Nozzle, Electrode, Air and oil regulator components, Pump Gasket and Screen, Air and Oil Solenoid Plungers and springs, block plugs, and a new Canister O- Ring.

REQUIREMENTS

This program excludes discontinued models. However, we do service all Clean Burn models. Please call us for pricing. Each Unit must not have run for more than 1,500 hours since it was last serviced. The service address must be within 60 miles of our closest service center. If we travel more than 60 miles to reach you an additional travel charge will apply. Travel time, or additional onsite labor for repairs "not covered" by this agreement, will be billed at a lower labor rate UNDER THIS AGREEMENT at \$75.00 per hour. Customer must have enough oil to fire the equipment at the time service is completed. If a man lift, or special equipment is required to reach or gain access to the equipment, a rental fee may be charged.

| <u>SERVICE REQUESTED:</u> | <u>SPECIAL COST</u> |
|-------------------------------|---------------------|
| March, April & May | \$525.00 |
| June, July & August | \$550.00 |
| September, October & November | \$625.00 |
